

## Old-Timers Hold Their 50th 'Birthday' Party

Mr. and Mrs. Jess Tuglie quietly celebrated their 50th wedding anniversary with a family dinner on Wednesday, February 25th.

Following are a few notes we received from Mr. Tuglie. We quote:

"We were married at Rock, Kansas, and settled on a farm west of Didsbury where we started to farm on a large scale, with three horses and a walking plough; something like 40 or 50 acres were seeded the first year. We had very few household utensils, the special ones were three pieces of silverware, a butter knife, meat fork and berry spoon, which are still on display."

We went to work with good health, lots of courage, faith and happiness. We truly have enjoyed the years in this surrounding more than we can find words to express. It has been wonderful to have watched the country develop, good roads, four-lane highways, improved farms, numbered cattle and old wells have all been part of the scene.

We love to tell how fortunate we have been in having wonderful relations with the world's best neighbors. We would like to thank them all for the short 50 years we have spent in their midst.

We now live on a farm close to Didsbury. We can see the smoke coming from many chimneys, hear the noon siren, the school building, the trains pulling through, the many cars moving on the highway, the high elevators and many other sights that were not here when we arrived in the district.

We have four married children living not too far away and have frequent visits from them. It is enjoyable to visit, even to chat with old friends, the storekeepers and many others.

We are happy to thank all who have visited us on our anniversary, and to those who sent gifts, cards and flowers. Congratulations were received from Hon. J. J. Bowen, Premier Manning and Prime Minister Diefenbaker.

This has been a short summary of our 50 years together; now we start on a new journey, hoping to grow younger and better-looking every day."

Lady curlers from this district were successful in taking first prize in the first event at the recently completed ladies' bonspiel at Crossfield. With 24 links in play, the foursome who came out on top included Lois Casabee, Della Taylor, Merle Siebert and Lorene Thomas. At the draw at the Kinsmen dance last Friday Paul Hauser and Eddie Olhauser won the new Ford car.

A miscellaneous shower held at Lone Pine hall in honor of Miss Lila McCulloch, was well attended by both Midway and Lone Pine district residents.

A short musical program was climaxed by an hilarious showing of Lila's trousseau, modelled by the following ladies: Roberta (Bob) Fisher, dressing gown and pyjamas; Alma (Allan) Marsh, pedal pushers; Helen (Howard) Fross, semi-formal; Ruthie (Rufus) Schellenberg, sweater and skirt; Roberta (Robert) Marsh, evening gown; Janice (Jim) Good, halter and skirt; Fredericks (Fred) Richardson, wedding gown; Wilma (Walter) McCulloch, afternoon dress; Jacqueline (Jack) Underhay, going-away suit.

The hostesses, Mrs. Marjorie Fisher, Mrs. Winnie Blitner and Mrs. Nettie Fross then served a delicious lunch.

Many in the district have received a letter from the government regarding the purchase of land for community pastures. It has caused much comment and wrath to think that the government would even be so insulting as to offer such ridiculously low prices, or even be so foolish as to consider those connected with such an easy mark. We would like to hear or see our M.L.A.'s opinion on this. Does he know why this feeler has been sent out and what is the real purpose behind it?

Mr. and Mrs. Pete Janzen and Mr. and Mrs. S. Janzen of Didsbury were visitors at the home of Mr. and Mrs. Joe Teyton Sunday.

Mr. Barry McMullen attended the plumbing school in Sundre last week.

### MaryLee McCoy Crowned Queen

(From Our Own Correspondent)

The crowning ceremony for the "Carnival Queen" of Didsbury Junior and Senior High School was held in the school auditorium on Monday afternoon. This ceremony was to have been held at the Lions Club Carnival last Saturday night but the weather made the carnival impossible.

At 3 p.m. the five candidates were assembled back-stage and after a few opening remarks by Principal E. T. Wiggins, Mrs. H. Lynch-Staunton carried out the crowning ceremony.

Mary Lee McCoy stood first with a total of \$131.30 as proceeds from her sale of tickets. Gerry Madoche ran a close second with \$123.10.

The other three candidates were very close together. Sandra Sletten, Heather Paul and Lillian Stauffer, accounting for the balance of the total receipts of \$360.40.

After the crowning each of the girls were presented with a spring bouquet of flowers. Mary Lee thanked all her supporters in a few well-chosen words.

The draw of the lucky ticket was then held and David Dupont, who had purchased a goodly share of tickets, was the winner of a new five-tube radio.

The students wish to thank the public for the support given in this project which netted some \$280 for the Students' Union funds.

### I.O.D.E. Announce Memorial Bursaries

The Provincial Chapter of Alberta, Imperial Order Daughters of the Empire, announce that 30 bursaries of \$1,600 each are being offered across Canada under the Second War Memorial.

These bursaries are awarded to Grade XII students eligible for university entrance, whose father or mother, having served in His Majesty's Forces during World War II, suffered death or permanent disability.

Application forms may be obtained from the Registrar of the University of Alberta, or the provincial educational secretary, Mrs. J. D. Manning, 14607 - 95th Ave., Edmonton, and must be returned not later than April 1st, 1959.

### Sales Tax On The Way ? ?

"Alberta's deficit budget may result in a provincial sales tax in the very near future," Hugh John MacDonald said in the legislative Monday.

He said in the budget debate that the increase in provincial spending could mean a sales tax of at least five per cent, increase to eight or even ten per cent.

Alberta's budget of nearly \$310 million in the 1959-60 fiscal year calls for a deficit of more than \$48 million. Mr. MacDonald said provincial expenditures will probably reach \$336 million by March 31st, 1960.

The member recalled statements a few years ago by provincial treasurer E. W. Hinman that provincial spending might soon outstrip revenues, making it necessary either to cut back on services or find new sources of revenue.

The only reason there has been no sales tax is that Alberta has

### Red Cross To Check Again

A special Red Cross meeting will be held in the Lions hall, Wednesday, March 11th, at 8 p.m.

At the United Appeal meeting held recently the following resolution was passed: "Moved by Wm. Cowan that this meeting go on record to appeal to the executive of the Red Cross organization that, due to the strength the Red Cross adds to the United Appeal, they meet to reconsider their decision to withdraw from the United Appeal."

Members of other organizations in the United Appeal were present and all concurred in the above motion.

Remember you are the Red Cross. Attend this meeting and express your opinion.

### Ratepayers To Vote In Two Divisions

Ratepayers of two divisions in the Municipal District of Mountain View will make their choice on March 21st as to who they wish to have as a representative on the council for the next three years.

In division "6", Earl Dodd and Harold Jansen are the two running for office.

In division "7", five candidates have been named; they include Thomas Barrocliff, Reginald Buckingham, Arthur Eskesen, Frederick W. Rorer and Kenneth L. Steeves.

In division "1", Herman Roeder was returned to office by acclamation.

### MRS. ST. CLAIR LAID TO REST

Mrs. Ethel Martha St. Clair passed away quietly at her home in Olds on Wednesday, February 18th, at the age of 72 years. Born at Red Oak, Iowa, June 27, 1887, she was educated and grew to womanhood there. She moved with her parents to Didsbury in the spring of 1906. The following year she married Ernest L. St. Clair, also an early settler in the district from Iowa.

The young couple began their married life in the Coburn area where they resided until fire destroyed the farm home in 1925. They then moved to the Gore district, where they lived until retiring to Olds in 1948.

An active community and W.I. worker, Mrs. St. Clair was loved by her many friends and neighbors.

She is survived by her husband, seven sons and two daughters, as well as 21 grandchildren.

The St. Clairs celebrated their golden wedding anniversary in 1957.

### FISH AND GAME ASSOCIATION TO HOLD IMPORTANT MEETING

## Ramblers Drop Behind In Playoff Race

The Didsbury Ramblers fell one game behind in their quest to retain possession of the Chinook League hockey trophy, which they won last year, when they dropped a close 6-5 decision to Red Deer on Tuesday night in the northern city.

Playing a wee bit short-handed, Didsbury were never ahead on the score board although they were able to come even with the opposition on two occasions.

Wayne Shantz had a big night for the locals, scoring three goals; Miller McCoy and Herman Epp added the extra corners.

No alphas have come in the Ramblers' roost — they'll be out to win Thursday night and wrap up the series here on Saturday.

### FINAL LEADING SCORERS

### Sometimes You Just Can't Win . . .

We were beefing last week about the bumps and channels on our frozen avenues; then the weatherman moved in and levelled them off in short order with his chinook breezes. However, we still think we had a legitimate sort of a suggestion — when the hard top had the soft stuff laying on it and was easy to work on, why wasn't the surplus slush moved away; machines are available for this work. Could be it'll be a frozen mess again before this wee piece reaches your viewing system. Our opinion is, if you can move it, let's move it when conditions are as favorable as they were for several days last week. Let's keep the hard-top in sight!

### Important Elections Coming Up . . .

Ratepayers of the Municipal District of Mountain View will go to the polls later this month to elect councillors for two divisions. In one division no less than five will be in the running (sounds like a hot race); in the other only two names will appear on the ballots. In a district that covers such a large area, it is imperative that council room decisions be made by the best men available — vote as you like but make sure you vote for the one you believe to be the best to represent your interests.

### Just For The Record . . .

Someone has been very remiss in reporting the progress of midget hockey in "our town" this season; seems like the younger set have really been going at the game for keeps. We'll try and track down their publicity director, whoever he may be. The senior Ramblers ended up in second place in their league and playoff plans are being made. Our thoughts for the latter team? Win the first round and then clobber Olds in the finals. Could happen!

### Join Us In Another Chuckle . . .

A rancher's wife tells of going to the city to attend a cattlemen's convention. She made up her mind she would have something unusual to wear on the trip, so she made herself a blouse and embroidered it with every cattle brand she knew of.

In the hotel where the cattle folk were staying, she waited while her husband registered and noticed two old cattlemen really giving her blouse the once-over. Finally one of them remarked in a voice that could be heard way up the canyon: "That critter sure has changed hands a lot, ain't she?"

### WHAT ARE THE GOALS?

The most interesting comment on the Olds by-election which we have heard came in the form of a question. Like most people an acquaintance answered our question about Olds with another: "Were people voting for Social Credit or for the Five Year Plan?"

This is, of course, one of those neat escape hatches for people who want to make a comment but not be bound by it. However this observation-question is a shrewd one and exposes a central problem of today. It suggests that perhaps there are two goals amongst people who vote Social Credit, those who are interested in Social Credit as a theory and those who have no interest in it but vote Social Credit for other reasons.

When the five year plan was announced it was curious how reminiscent it sounded of speeches of the opposition in the Legislature. The opposition goals cannot be those of the government. Therefore it suggests that the government is pursuing two roads now and has two goals in view. So long as it doesn't give the government a split-personality and the public a split-personality, the five year plan may do all right.

It would make a nice philosophical discussion whether such things are possible for very long. It seems to us that Social Credit must very soon justify itself as Social Credit instead of marking time, or it ceases to be Social Credit at all.

It may however manage to re-write the history of political parties which have usually come to power to establish their goals, create the conditions which they set out to create and then either harden into tradition or continue to expand and extend their aims with more or less impetus. To start with a tremendous faith, not establish the conditions which the faith dictates and mark time for years, defeat the faith.

We suggest that the five year plan, though excellent in most respects, itself, is a confession that Social Credit as such, is finished.

### Canadian Red Cross Golden Anniversary

This is Red Cross Month and we are reminded of the event by the many posters and flags carrying the familiar and traditional symbol of mercy.

It is interesting to note that this year the world will commemorate the 100th anniversary of the birth of the Red Cross idea and at the same time we salute our Canadian Red Cross Society in its golden anniversary year.

Here in Canada the Red Cross movement has had an outstanding growth and today it literally spans the nation with an active organization in more than 1,200 Canadian communities in every province. It is recognized as the nation's largest voluntary organization with the support of millions.

This volunteer support has always been willingly given to the Red Cross by Canadians everywhere because there has been an inherent faith in its many activities in peace and war. The rec-

ords of achievement during the half-century can be shown by volumes of statistics but the genuine accomplishment is known by the millions of our neighbours who have been helped in so many ways by the Canadian Red Cross.

To meet its many humanitarian obligations and to carry on its essential services and programs the Red Cross needs the support of every Canadian. The people who volunteer their time, their energy, their talent and their blood must be generously supported by those who are able to give their financial support.

In the near future a volunteer Red Cross canvasser will call at our homes and offices to request financial help for the Canadian Red Cross.

The dollars we are able to volunteer will mean so much to so many. We know that we will be helping others and there is always the chance that we may be helping ourselves. Through your generous donations we will make sure that the work of Red Cross and the work of mercy will not end.

## OTTAWA REPORT

By E. M. WOOLLIAMS, M.P.

On many occasions since March 31, 1958, there have been comments and reports in the press, radio and on TV to the effect that the government finds it difficult to keep its large number of members occupied. Let me say at the outset that such statements are far from true and I would like briefly to outline to my readers why I say this.

The House of Commons sets up some 17 standing committees which are composed of members from all parties, based on the representations of each party in the House. A Conservative member is usually on no less than three of these committees and many are on four or more.

For example, I am serving on the agriculture committee, the mines, forests and waters committee, the oil and gas committee, and the banking and commerce committee. In addition, many committees are set up within the Progressive Conservative party to study a variety of subjects and make recommendations to the government.

The House of Commons committees meet in the mornings at various times. Needless to say, several meet on the same days and consequently, a member may have to move from one to another. On occasion a member may find himself in the position where he is supposed to be in three or more places at once. When he misses a committee meeting because of this, he must, in order to follow the progress of the next meeting, read the evidence and ascertain what took place.

In between committee meetings, a member deals with his large volume of correspondence, has interviews with cabinet ministers about problems affecting his constituency and constituents, or consults officials of various departments with regard to these problems.

Thus, the days are busy ones, even for "back benchers," and when you consider that a "back bencher" must do his own research work in dealing with requests or representations made by groups or individuals as well as in preparing to speak on a topic under debate in the House, he is usually occupied on weekends too. I think you will agree that "back benchers" have absolutely no trouble in keeping busy.

It May Be Funny  
But Not To Victim

A front page story headlined in the Lethbridge Herald on Saturday told of a baby-sitter being stuck to her job. When the parents of the children entrusted to her care came home they found the baby-sitter stuck fast to the toilet seat, which had been painted with some sick-fast aluminum paint which the girl was unaware of. It took considerable force and the aid of a doctor to pry her loose.

This calls to mind the following rhyme broadcast over the BBC a few years ago:

## AN ODE TO SONIA SNELL

(By Cyril Fletcher)

This is the tale of Sonia Snell  
To whom an accident befell  
An accident which may well  
become  
Embarrassing in the extreme.

It happened as it does to many,  
That Sonia had to spend a penny,  
And entering with modest grace  
The properly appointed place  
Provided at the railway station  
Where she sat in meditation.  
Unfortunately, unacquainted,  
The woodwork had been newly  
painted.

Which made poor Sonia realize  
Her inability to rise.  
And though she struggled, pulled  
and yelled,  
She found that she was firmly  
held.  
She raised her voice in mourn-  
ful shout,  
Please someone come and let me  
out.  
Her cries for help then quickly  
brought  
A crowd of every kind and sort,  
They stood around and feebly  
sniggered  
And all they said was "I'll be  
jiggered."  
"Oor blimey," said the aged  
porter,  
"We ort to soak 'er off wif water."

The station Master and his staff  
Were most polite and did not  
laugh;  
They tugged at Sonia's hands  
and feet,  
But could not get her off the  
seat.  
The carpenter arrived at last  
And finding Sonia still stuck fast,  
Remarked "I know what I can  
do."  
And neatly sawed the seat right  
through.

Sonia arose, only to find,  
A wooden halo on her behind.  
An ambulance came down the  
street  
and bore her off, complete with  
And bore her off, complete with  
seat.  
To take the wooden bustled  
girl  
Off quickly to the hospital.  
They hurried Sonia off inside  
After a short but painful ride  
And sealing her by heels and  
head  
Laid her face down upon the  
bed.

The doctors all came on parade  
To render her immediate aid;  
A Surgeon said, "Upon my word,  
Could anything be more absurd?"  
"Have any of you, I implore,  
Seen anything like this before?"  
"Yes," said a student unashamed,  
"Frequently, but never framed."

## Notes From D.A.

By HOWARD FULCHER  
District Agriculturist

Anaemia in pigs takes a large  
toll of young pigs each year. Anaemia  
is lack of iron in the suckling  
pigs' diet. Iron is required for  
the formation and functioning of  
blood.

Anaemia in young pigs shows up  
with a pale color of the skin. The  
hair is dull and the pigs lack vig-  
our; on occasions the pigs may  
breathe rapidly and heavily, this  
condition is referred to as "thump-  
ing." The death losses occur in the  
suckling pigs even as early as the  
second week of life.

Anaemia can be easily prevented,  
it is prevented by supplying the  
suckling pigs with iron. The "re-  
duced iron" is given to the pigs on  
the third day, tenth day and seven-  
teenth day of the pig's life. It may  
be purchased in a powder, paste or  
liquid form. Any form may be  
used as long as directions are fol-  
lowed and administration is done  
at the proper time.

Lately a newer method has been  
developed with the use of inject-  
able iron products. In this case  
the iron injections are made with  
a needle. These injectable products  
vary in available iron content and  
in recommendation regarding "fol-  
low up" injections.

When using a low iron content  
product it is necessary to have re-  
peated injections, while the high  
iron content product gives suffi-  
cient iron in one or, in some cases,  
two injections. Therefore, it is im-  
portant to know the iron content of  
the product being used. The label  
on the product should be read care-  
fully.

## LIGHT YOUR WAY ...

## ... WITH BIBLE STUDY

"Pastor, to whom should we  
pray?" A simple question. The  
answer is just as clear. But the  
answer is so often misunderstood.  
For a Christian, the answer to  
this question, or any other question,  
found in the Word of God is final  
and complete. So, we turn to His  
Word.

Prayer, as we mentioned before,  
is talking to God. Therefore, when  
we pray, we address God. Jesus,  
tempted of the devil to fall down  
and worship him, refused the re-  
quest of the devil with the clear  
Word: "Thou shalt worship the  
Lord, thy God, and Him only shalt  
thou serve."

On the basis of this, we can de-  
finitely say that we should not  
pray to idols, for they can neither  
hear nor answer us. The Psalmist  
said: "The idols of the heathen are  
silver and gold, the work of men's  
hands. They have mouths but they  
speak not; eyes have they, but they  
see not; they have ears but they hear  
not; neither is there any breath in  
their mouths. They that make them  
are like unto them: so is everyone  
that trust in him." For much the  
same reason we should not pray to  
the departed, often called saints. They  
can not hear us, nor help us. In  
Scripture we have only one instance  
of "praying" to saints. The rich man  
in torment of hell called upon Ab-  
raham, and Lazarus in his bosom.  
But you recall that "prayer" avail-  
ed nothing. This same holds true  
of praying to angels. In Revela-  
tions we read: "And I fell at the  
feet of him (an angel). And he  
said unto me, See thou do it not;  
for I am thy fellow-servant, and  
of thy brethren that have the testi-  
mony of Jesus: worship God."

Yes, friend, when you pray, pray  
to the true God, that is, the Triune  
God, Father Son, and Holy Spirit.  
To him alone such honor is due.  
He alone is able and willing to hear  
and grant your prayer.

## DISTRICT NEWS

## M.V.B.C. NEWS

(From Our Own Correspondent)

Students were again busy during the weekend. The Director of Gospel Service, Mr. Leonard DeWitt, arranged the service in the United Missionary Church, Didsbury, wherein every department of the Sunday service was carried on by students. In the morning service, Mr. LaVerne Neufeld preached, and in the evening, Mr. Clifford Reimer spoke. These young men are finishing their fourth year of work and will graduate with the degree of Bachelor of Sacred Literature this spring. Special music and Sunday School features were also given and the audience enjoyed a day of inspiration and blessing.

Over the weekend Mrs. Taylor and family, Mrs. A. Witt and Cameron, and Mrs. Florence Finley were in Edmonton. While there holding missionary services on Sunday, the relatives and friends of Mrs. Witt helped celebrate her birthday at a dinner given by her sister, Mrs. Raymond Young. Mrs. Witt's birthday really isn't until this week, however, and birthday cards would still be in order when you read this.

During the past week Mrs. Taylor served afternoon lunch to the faculty and staff in honor of Mr. Arthur Eby's and Miss Gail Eby's birthdays, which were within a day of each other.

The people of the church entertained the students and faculty of the college last Sunday. This is always a very gracious act on their part, and is greatly appreciated by all of us here. We want to say a big 'thank you' to all who had a part in the hospitality, and especially to Mrs. Annett who worked so hard to arrange this annual affair.

This is Missionary Month in the United Missionary Church Conference. Our three missionaries on the faculty and staff will be going out constantly to take meetings and will find the month very strenuous. You will have the privilege of hearing them some time during the month, so watch for announcements. Within the next week or two, Rev. Richard Reilly, General Secretary of the Mission Board of the church will be holding a Seminar in the College. Further notice will be made concerning this.

President Taylor and Prof. Auburn Witt will be on campus again by the end of the week. Both of them attended the General Conference of the church held in Ohio during the last week. Their classes were taken by Rev. Dietz, Rev. A. Traub and a couple of faculty members.

**WILD OAT CONTROL** — A promising chemical labelled S-847 has been under test as a post emergent spray for selective control of wild oats. Preliminary tests are very encouraging. At Lacombe in 1958 this new material applied at the rate of one-half pound active ingredients in five gallons of water per acre gave 80 per cent control of wild oats. Wheat is entirely immune to damage, flax and barley are fairly tolerant, more so than cultivated oats.

S-847 is the most promising post emergence control for wild oats that has yet appeared according to Henry Priesen, head of the Field Husbandry Section at Lacombe Experimental Station. It is not available yet commercially, but if further tests support the present indications it should prove a valuable aid. If its value is established, prices are expected to be sufficiently low to warrant its use. Tests are proceeding in the greenhouse this winter at Lacombe to decide best rates of application, volume of water and stage of growth. Field tests last spring indicate that the best time to treat wild oats was in the two leaf stage. Plans for the coming season in Alberta include a testing program involving all Experimental farms in the Province and the Department of Plant Science at the University. Work is also proceeding at Experimental Farms across the prairies.
